Introduction:

In the beginning we started manufacture of "Heat Transfer Units" & "Engraving Units" which used in dyeing, Printing and finishing sector. we started manufacturing textile machinery in Faisalabad-Pakistan for local sector and also in international textile sector like Bangladesh, Egypt, Tanzania etc.

"The Sitara Engineers" offers are engineered to reflect the highest level of specification.

"The Sitara Engineers" has revised its usual model of management to serve our customers according to modern needs. We have demonstrated remarkable gradual progress and have earned good trade-good will in national and foreign market during these periods and are now well positional to capitalize on this platform and look forward to the future with firm commitment to success with standard service to Textile Sector.

We also work as facilitator between buyer and seller for new, used and recondition machineries on commission basis. In case your company has any kind of machinery or equipment for sale, we can out source buyers for you. We have a very qualified team for services.

Industrial Sectors Served:

I belong with textile sector since 1979

Core Strengths/ Skills, Technologies/ Equipments:

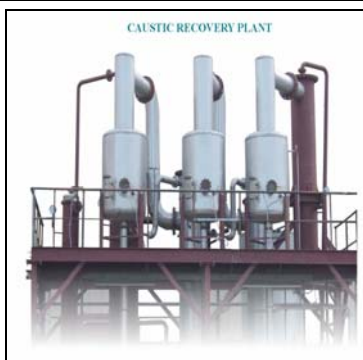

*Lath Machines
Shaper Machines
Facer Machines
Welding Plants
Argon Welding Plants
Powder Coating System*
